THE STORY OF A REMARKABLE PAMILY THE STORY OF A REMARKABLE FAMILY IS THE KENTUCKY MOUNTAINS.—About one mile from Jamestown, Russel'county, there lives one of the most remarkable families in all this commonwealth, and, probably in the United States. Mr. Jas. Jeffries, who is now in this city serving on the petit jury of the United States Court, tells his own story, and says that he was married before he was seventeen earn old, his wife being only five days he was married before he was seventeen rears old, his wife being only five days jounger than himself. They lived to-either seven years without children, when his wife gave birth to twins, a boy and a girl. In the fifteen years which followed, nineteen children were born to the hanvy couple, each of the first type. the happy couple, each of the first three births being twins, and each subsequent birth alternating between twins and single births until the fifteen years were secomplished, and nineteen children composed the family circle, seven pair of wins being born during the time. Mr. revins being born during the time. Mr.

effries is only 45 years old, and is still
outhful in appearance and very stout.
Ils wife never had better health in her
ils than at the present, though she will
ast weigh 100 pounds. Her greatest
seight at any time was 110 ten pounds.
The boy of the first twins now weighs
55 younds, and the girl 125 pounds.
Ill the boys who have grown have undearge men; the girls are of good size, and
all the children healthy. But five of the
ineteen have died. Mr. Jeffries has ten
wothers, all of whom are large men, and
outhin the families of these eleven brothers there are thirty-seven pairs of twins. ers there are thirty-seven pairs of twins, making seventy-four twin children, to ay nothing of the hosts of single births. say nothing of the nosts of single births.

Five of Mr. Jeffries' children are married, and, added to these singular facts, not withstanding the absence of silvery locks on his head, he is the grandfather of five childred.—[Louisville Courier, Oct. 18th.]

Bornara, the capital of Turkistan, which Russia wishes to possess, boasts of being the most religions and most learned city in the world. It contains 25 mosques, one for each day in the year. It also has a hundred colleges, which receive students from every part of Mohammedan Asia. Although the teachings of the Koran are law, and not withstauding it teaches "every believes" teachings of the Koran are law, and not-withstanding it teaches "every believer is free," still slavery exists there in the worst form; a very large proportion of the slaves being Mohammedans. The inhabitants of Turkistan reconcile this acconsistency by showing that they themselves are entirely orthodox, while their slaves, who are taken from other countries, are wanting in some essential points that constitutes the true faith of points that constitutes the true faith of the great prophet. The slaves do all the work, and are subject to cruelties without a parallel in any time or country. The price of adult male slaves in their prime is generally from \$100 to \$150. prime is generally from \$100 to \$150, but after a victory over some neighboring nation a man may often be bought tor \$10. The country, in respect to climate and production, is represented as little short of an earthly Paradise.

In a criminal trial the defense attempted prove that the prosecuting witness was not of sound mind, and his land lady was put on the stand. She testified that she ad not believe him wholly sound in a mental point of view, from the fact that he had neglected to pay his board bill of late, and this, in her opinion, was an evidence of an abstracted intellect. Be-sides this, he had paid a fortune teller \$1.50 to enlighten him upon future events. The prosecution then proved that some of the best intellect in the country patronized fortune tellers, and that failing to pay a board bill was con-clusive evidence of a sound mind. The Judge concurred in his view, and ordered the defendant to appear for sentence.

CHILI, the most prosperous and proessive of the South American States a to have an International Exhibition, and the sum of \$225,000 has been ap-propriated for the building of an edifice Valparaiso, in which the great Fair SPRING & PULU MATRESSES. to be held. It is to be hoped that the hoped that the ther States of South America will give encouragement to the enterprise, and that American manufacturers will have an opportunity to place their products in competition with those of Europe before an impartial jury. Heretofore Europe has allowed their before an impartial jury. Heretofore Europe has almost monopolized the trade outh America.
